

MILTON MARTINEZ GALINDO

Full Stack Developer

EDUCATION

COMPUTER SYSTEMS ENGINEERING

2018 - 2023

Universidad de El Salvador

EXPERIENCE

SOFTWARE ENGINEER

November 2024 - December 2025

NICE

- Develop interactive and responsive user interfaces using **React** and **TypeScript**, ensuring a smooth and modern user experience.
- Build reusable and **modular components** following best practices and maintaining **clean, efficient, and well-documented code**.
- Integrate **RESTful APIs** to connect the frontend with backend services.
- Optimize application performance through efficient rendering, lazy loading, and memoization techniques.
- Manage global state using tools such as **Axios, Tailwind, Redux**.
- Collaborate with UI/UX designers and backend developers to translate business and technical requirements into functional solutions.
- Ensure cross-browser and cross-device compatibility, maintaining accessibility and usability.
- Participate in code reviews to maintain code quality, consistency, and scalability.
- Use version control systems (**Git/GitHub/GitLab**) and follow collaborative workflows (branches, pull requests).

FRONT-END DEVELOPER

September 2023 - November 2024

The Orange Box Agency

- Developed and maintained responsive and user-friendly websites, ensuring cross-browser compatibility and mobile optimization.
- Created custom themes for both **HubSpot** and **WordPress**, ensuring a unique and cohesive design across platforms.
- Implemented SEO best practices to improve website visibility and search engine rankings.
- Collaborated closely with UX/UI designers to translate design mockups into functional web pages using HTML, CSS, and JavaScript.
- Integrated third-party APIs and services to enhance website functionality and user experience.
- Scaled backend services.
- Optimized SQL database scripts, leading to a 25% improvement in query performance.
- Communicated effectively with remote project teams, providing timely progress updates and overcoming project challenges.
- Implemented responsive UI designs and CSS themes, improving user experience across various devices and screen sizes.
- Engineered reusable components, increasing development efficiency and code reuse.

WEB DEVELOPER

July 2022 - August 2023

Empresa Web De El Salvador

- Engineered and sustained **responsive, user-friendly websites** with robust cross-browser **compatibility** and **mobile optimization**.
- Executed **SEO** strategies to enhance website visibility and improve search engine rankings.
- Collaborated with **UX/UI** designers to convert design mockups into functional web pages utilizing **HTML, CSS, and JavaScript**.
- Utilized **WordPress** with custom themes, **Unlimited Elements**, and other **plugins** to build and **customize websites efficiently**.

PROJECTS

PORTFOLIO

🔗 <https://milton-mg.netlify.app/>

My personal portfolio, **milton-mg.netlify.app**, is a modern web application built with **Next.js** and **Tailwind CSS**, created to showcase my **skills**, **projects**, and **professional experience** as a **web developer**. The application follows a **reusable component-based architecture** and **responsive** design principles, delivering optimized performance and a consistent experience across different devices.

Additionally, it integrates a contact form connected to the **EmailJS API**, allowing users to send messages directly to my personal email, demonstrating experience in third-party service integration and frontend-to-API communication. The project is deployed on **Netlify**, highlighting the use of modern workflows, version control, and continuous deployment practices.

SCRAMBE WORDS APP

🔗 <https://adivina-la-palabra-minigame.netlify.app/>

Scrambe Words App is an interactive web mini-game developed with **React** and **TypeScript**, where users must unscramble shuffled words to progress and earn points.

The application leverages **React's useReducer** hook to manage state in a structured way, **handling game logic**, **player progress**, and the **dynamic word list** stored within the app.

With a simple, **responsive**, and **user-experience-focused interface**, the project demonstrates skills in frontend development, complex state management, and the implementation of engaging game mechanics within modern web applications.

RESPONSIVE WEBSITE (DEMO)

🔗 <https://demo-page-mm.netlify.app/>

The website **demo-page-mm.netlify.app** is a modern web application developed with React.js and deployed on Netlify, enabling high performance, scalability, and optimized load times through the delivery of static content combined with dynamic functionality.

The platform features a clean, fast, and responsive interface designed to provide a smooth user experience across different devices and browsers. By leveraging reusable components and a modular structure, the application maintains an organized and maintainable codebase, facilitating future enhancements and scalability.

SKILLS

- Playwright
- JavaScript (ES6+)
- HTML5
- RESTful APIs
- Tailwind CSS
- HubSpot
- Git
- GitLab
- Figma
- Scrum
- WerbDriverIO
- TypeScript
- CSS3
- Node.js
- WordPress
- SEO
- GitHub
- BitBucket
- Postman
